

ELEVATOR CRUSHER ZRC500

The Zumex ZRC 500 Crushing unit rinses and crushes fruit and vegetables to prepare them to extract their juice. It is the best and most compact unit with capacity for many kinds of fruit, either with or without stone, obtaining the highest yield. It has different exchangeable cutting screens depending on the fruit or vegetable to be processed as well as different sets of plates, including slotted hole screens for stone fruit.

TECHNICAL CHARACTERISTICS

CENTRIFUGAL CRUSHER

Its 4 Kw capacity allows it to crush up to 1000 kilos of fruit per hour. It is supplied with different modules to adapt the crushing size.

INTAKE HOPPER

*For its initial stage it has a 1800 mm x 2055 mm **stainless steel** hopper to load fruit, with water intake and discharge to rinse the fruit.*

BUCKET ELEVATOR

*During this second crushing stage, the bucket elevator, **perforated to drain the water**, includes a water spray for the final rinse during elevation.*

With capacity for many different types of fruit, with or without stone.

TECHNICAL CHARACTERISTICS

Crushing capacity	1.000 kg/h
Crusher motor power	4 kw
Elevator motor power	0.75 kw
Dimensions (length x width x height)	2.663 x 677 x 2.171 mm
Electrical characteristics	400 V/50 Hz
Made entirely stainless steel	AISI-304
