

FRUIT TREATMENT LINES FOR JUICE AND PULP EXTRACTION

TECHNICAL CHARACTERISTICS

Zumex Food Engineering offers complete solutions for treating fruit prior to processing, both for juices and for purées and other uses.

TREATMENT LINES

Zumex Food Engineering has elements such as: **Pallet tippers, Boxes, Selection tables, Brush washers, Dryers, Roller and belt calibrators and Tiling roller calibrators**, among others.

These elements form part of the lines that are normally supplied by **Zumex** in many different facilities to produce fruit juices, designing and dimensioning the machinery according to the needs of the plant.
